Upgrade your shower experience with our stylish and functional shower arms. A shower arm is an essential pipe fitting that connects your shower head to the water supply, providing flexibility in placement and height adjustment. Our shower arms come in various styles, including straight and curved to fit your specific needs.

- A perfect way to keep your shower head firmly in place and make your bathroom look and feel elegant.
- Provides a relaxing and therapeutic shower experience, reducing stress and improving blood circulation.
- Improves water pressure by allowing a more direct flow of water.
- Easy installation and use with minimal plumbing modifications.
- Stylish and decorative designs to match any bathroom décor.

BENEFITS

- Flexible placement options for personalized shower experience.
- Ceiling and wall-mounted options for different outlet heights.
- Longer lengths accommodate larger shower heads for full body coverage.
- Can be used with different types of showerheads.

FEATURES

- Country of Origin: Italy
- Material: Brass
- Dimensions: See technical drawings
- Connection: 1/2" NPT
- Integral Flange
